

WHEN WOMEN ARE NOT FREE, NO ONE IS FREE!

INTO THE STREETS TO DEMAND THE FEDERAL GOVERNMENT RESTORE **NATIONWIDE LEGAL ABORTION NOW!**

The overturning of abortion rights is **ILLEGITIMATE!**
It must not stand!

The state has no right to force women to have children against their will. To treat women's wombs as sites of surveillance. To hunt down, put on trial and imprison women who are accused of inducing their own abortions. Forced Motherhood = Female Enslavement.

To fall silent now is to acquiesce to a growing pile-up of the shattered lives of women and girls. It is to acquiesce to the growing theocratic assault on contraception, LGBTQ rights, on the history and lives of Black people and much more.

We must Rise Up 4 Abortion Rights NOW! We must fill the streets again and again in massive, sustained and growing nonviolent protest. We must make clear to those in power that we will sooner bring the gears of society to a grinding halt through mass nonviolent resistance than to accept the horror of forced motherhood.

**When Millions of Women Are Not Safe—There Are No Real “Safe Havens”
What Happens To One Of Us Happens To All Of Us**
